CLOSING DAY

Buying a home is a major life purchase. Having an experienced agent on your side is crucial to protect your best interests. A buyer agent represents you, ensuring your protection throughout the process.

PROBLEM SOLVER

My commitment is to safeguard all your interests and address any issues that emerge during the entire process. I strive to make purchasing a home a delightful and tranquil experience, working tirelessly to achieve this goal.

AFFORDABILITY - BUYER'S AGENT FEE

HOW MUCH HOUSE CAN YOU AFFORD?

When it comes to purchasing a home, mortgage lenders advise against buying a property that exceeds 3 to 5 times your annual household income. Unless you are buying with cash, obtaining a mortgage pre-approval from your lender is essential. The lender will collaborate with you to secure a loan that suits your requirements. While some buyers prioritize keeping their monthly payments at a minimum, others prioritize ensuring that their monthly payments never increase.

CHECK YOUR CREDIT

To obtain a mortgage, a favorable credit score is necessary. Try the following to improve your score:

- Pay down the balances on your credit card
- Ensure timely payments of your debts
- Wait until you obtain approval before applying for new credit cards or car loans
- Refrain from making significant purchases until you have secured approval
- If possible, avoid job changes until you have been approved.

SAVE CASH FOR A DOWN PAYMENT & OTHER EXPENSES

If you wish to turn your dream of buying a home into a reality, you will need to save cash for the following: down payment, earnest money, closing costs, and home inspector.

Here are some key points to note about the costs associated with buying a home:

A down payment usually falls within the range of 3.5% to 20% of the purchase price.

Earnest money is the amount paid as a show of commitment when purchasing a home, also known as a good faith deposit.

Closing costs for the buyer typically range from 2% to 5% of the loan amount. The cost of a home inspection typically ranges from \$300 to \$500.

3

get pre-approved

To be pre-approved for a loan, as opposed to merely pre-qualified, you must provide documented financial information (income, asset and debt statements, credit reports, etc.) for review and verification by the lender. Pre-approval indicates that a lender has approved you for a specific loan amount.

4 start home shopping

Start touring homes in your price range

It's time to start the ultimate home shopping spree! We'll be visiting countless beautiful homes, so don't worry about forgetting the details - we'll take notes for each one we see. To make sure you don't miss any of the important features, snap pictures or videos to reminisce about each house. Once we've found "THE ONE", we'll put together an offer based on recent sales and current activity in the neighborhood. Of course, we'll also consider the current condition of the property. There might be some negotiations involved in the process too, so prepare for excitement!

We will make sure to check every little detail of each house

- Test the plumbing
- Test the electrical system
- Open and close the windows & doors to make sure they work properly

Take note of the neighboring homes - are they well-maintained?

Consider the amount of traffic on the street - is it bustling or peaceful?

Assess the convenience of the location - is it close to schools, shopping centers, restaurants, and parks?

5 make an offers

WHEN TO MAKE AN OFFER:

Congratulations on finding THE house! That's fantastic! In the current market, where demand exceeds the number of available homes, it's crucial to act quickly.

HOW MUCH TO OFFER:

We'll analyze recent sales, current buyer activity, and property value to determine the price you'd like to offer. Let's sit down and put all this information together.

SUBMITTING AN OFFER

There are some components to an offer that makes it more appealing to the sellers.

•Put Your Best Foot Forward

Let's collaborate to explore your options and craft your most compelling offer. With the circumstances in mind, remember that making a positive impression may be a one-time opportunity.

•Put Down a Healthy Earnest Deposit

By making a large earnest money deposit, you prove to the seller that you are serious.

•Cash Talks

A seller finds a transaction more appealing if it does not depend on receiving loan approval.

•Shorter Inspection Periods

Try shortening the inspection period to 10 days

•Write the Seller a Letter

To make your offer shine, we'll craft a heartfelt, personal letter for the seller, expressing why you've fallen head over heels for their home. Let's make it a truly special message!

•Offer to Close Quickly

Many sellers prefer to close within 30 days.

AFTER YOU SUBMIT AN OFFER

THE SELLER COULD

•ACCEPT THE OFFER

•DECLINE THE OFFER

This happens if the seller thinks your offer isn't close enough to their expectations to further negotiate.

•COUNTER-OFFER

A counter-offer is when the seller offers you different terms. If this happens, you can:

•ACCEPT THE SELLER'S COUNTER-OFFER

•DECLINE THE SELLER'S COUNTER-OFFER

•COUNTER THE SELLER'S COUNTER-OFFER

You can negotiate back and forth as many times as needed until you reach an agreement or someone chooses to walk away.

OFFER IS ACCEPTED - CONGRATS!

It's official! You're under contract now that you've signed on the dotted line. It's time for the contingency period, where inspections, appraisals, and anything else you've agreed upon in the purchase agreement will go down.

Let's set up an inspection during the inspection period with a reputable home inspector for a comprehensive investigation of the house. After inspection, we'll get a list of their findings.

You can then choose to take care of the issues as-is or request the seller to address them. We'll be reasonable on smaller items but cautious on significant issues.

6 order an inspection

7 negotiate final offer

After the home inspection, issues often come up, leading to another round of negotiations for credits or fixes. Here's what you need to keep in mind:

Request credit for necessary repairs: The seller is usually not eager to handle repairs themselves.

Focus on the big picture: Don't stress over minor things like caulking or a leaky faucet. Repairs can still be negotiated, and a small credit could assist with closing costs.

Maintain a poker face: The listing agent will be present during inspections. It's important not to reveal your comfort level with the home, as it could impact future discussions or negotiations.

8 appraisal

ordered

Your lender will arrange for an independent appraiser to assess the value of the house you're purchasing. This appraisal ensures that everyone agrees on a fair price.

Once approved, the loan file proceeds to the mortgage underwriter. If successful, you'll receive a final commitment letter with the loan terms and percentage rates. Almost there!

PROPERTY TITLE SEARCH

Rest assured, this step ensures that the seller is the rightful owner of the property and that any outstanding liens, loans, or judgments on the property are fully disclosed. It's all about covering our bases!

HOME OWNERS INSURANCE

Before the closing, it's important to secure insurance for your new home. This insurance will provide protection against potential risks such as fire, storms, and flooding. It's your safety net for peace of mind!

closing

day

CLOSING DAY

Closing is the final step where you sign paperwork, get the keys, and officially become a homeowner. It usually takes about four to six weeks. During this time, your money is held in escrow until the transaction is complete, ensuring it's safe throughout the process.

CLOSING DISCLOSURE

Lenders must give you a closing disclosure at least three days before closing. This document shows your final loan terms and closing costs, giving you time to review it. The purpose is to avoid any surprises during the closing process. If there's a major difference between the loan estimate and closing disclosure, we need to inform your lender and title company right away.

FINAL WALKTHROUGH

Within 24 hours of closing, we will conduct a final walk-through of the home to ensure its condition. This inspection typically takes about an hour. During this time, we will verify that any agreed-upon repair work by the seller has been completed.

We will specifically:

- Check that all appliances are functioning correctly.
- Run water in all faucets to detect any leaks.
- Test the opening and closing of garage doors with the opener.
- Flush toilets to confirm proper operation.
- Run the garbage disposal and exhaust fans.

This thorough check ensures that the property is in good condition before finalizing the purchase.

CLOSING TABLE

The following individuals will be present at the closing:

agent

The seller

The seller's agent

A representative from the title company

Your loan officer

Any real estate attorneys involved in the transaction
The closing usually takes place at the title company's office. Be prepared to sign a variety of documents, such as the deed of trust, promissory note, and other necessary paperwork. Get your writing hand warmed up for this important step!

CLOSING COSTS

Your total closing costs may depend on the cost of your home and the location. Typically, you should anticipate paying 3% to 4% of the sale price for closing costs. Note that the seller may sometimes cover some of the closing costs.

BRING TO CLOSING

The amount of closing costs you will need to pay can differ based on the price of your home and the location. As a general estimate, expect your closing costs to be approximately 3% to 4% of the sale price of the home. It's worth noting that in some cases, the seller may agree to share some of these closing costs with you.

RECEIVE YOUR KEYS

Woo-hoo, you did it! All the hard work has finally paid off, and you are officially a homeowner! Time to celebrate this awesome achievement with your loved ones and new neighbors.
